

NUS Consulting Group Ltd

Planet Mark Certification Data

Methodology & Assurance

We measure our carbon footprint in full alignment with the Greenhouse Gas (GHG) Protocol, with Planet Mark independently verifying all data against evidence provided by NUS Consulting Group UK's operations.

Key Findings

NUS Consulting Group's largest source of emissions was Scope 3, Category 7 (Employee Commuting), accounting for 31.0% of our total market-based footprint — followed closely by Scope 2 Electricity at 29.9%. Unless otherwise stated, all Scope 2 emissions are reported using the market-based methodology.
